Subject: Facebook

Good Evening,

Can all Divisional Superintendent's please remind your members, even if it means forwarding on this e-mail to all your members, regarding the possible consequences to messages placed on Facebook regarding St John. It has come to my attention that messages in relation to St John have appeared on facebook after my very clear instructions against this last Monday night at the Regional Meeting. I realise that people get frustrated at things want to vent, and while it is a private forum, there can be serious repercussions for comments made, including termination of membership. Please please just don't write anything, and you won't have anything to worry about.

thanks,

Nicole McEwan

Regional Superintendent

Eastern Region
